

Colon Cancer Alliance™

MARCH IS NATIONAL COLORECTAL CANCER AWARENESS MONTH

colorectal cancer is the **second**
leading cancer killer, yet it is
Preventable. Treatable. Beatable!

COLORECTAL CANCER SCREENING SAVES LIVES IN TWO WAYS:

- 1 By finding the cancer early, when it is most treatable
- 2 By finding + removing precancerous polyps – or growths – before they become cancer

**Talk with your doctor
about your screening
options TODAY!**

For more information about screening, risk factors, or genetic testing for inherited colorectal cancer, contact the Colon Cancer Alliance at www.CCAAlliance.org or call our Helpline at 1-877-422-2030.

Made possible by an educational grant from Myriad Genetic Laboratories, Inc., the leader in genetic testing for inherited colorectal cancer. Visit www.myriadtests.com for more information.
